

Biblical Foundations For Freedom

Releasing God's life-changing truth to a new generation

Pray BFF #122

February 12th 2008

[\(PDF Format\)](#)

Dear Prayer Team,

Suffering

In the last weeks, I have received several emails from places that are facing extreme violence. They affect the ministry of BFF.

Yesterday, for example, an email from a Kenyan pastor came. He originally asked for our free CD material. We sent it out along with a confirmation email before all of this happened. The needs are self-evident.

"Praise God and how are you doing. I was not able to reply soon because here in Kenya we are passing through hell. Please pray for us that God may restore peace in our country. Right now I am living in a camp after being displaced. If you have people here who can help or there is a way that you can help please inform me. The immediate problem here is food and clothings because they were all burnt. yours in his service."

Then from India just 50-60 miles north of where we were last year came another report.

"The bad news is that there are near about 40 churches and many believers houses were burnt by the Hindu religious people in Pulbani district in the state of Orissa at Christmas season. Many believers went to jungle (forest) to save their lives. Orissa Government couldn't allowed any press and media to cover the news. Please pray for them."

These are heart-wrenching pictures of the troubles that our brothers and sisters are going through in different parts of the world. Let us uphold them with our prayers.

Even more recently we heard that 3 pastors were burnt alive there in India.

Requests to God

*Pray for safety for those in India and Kenya .
